SERA Repeater Journal

The Offical Voice of SERA, Inc.

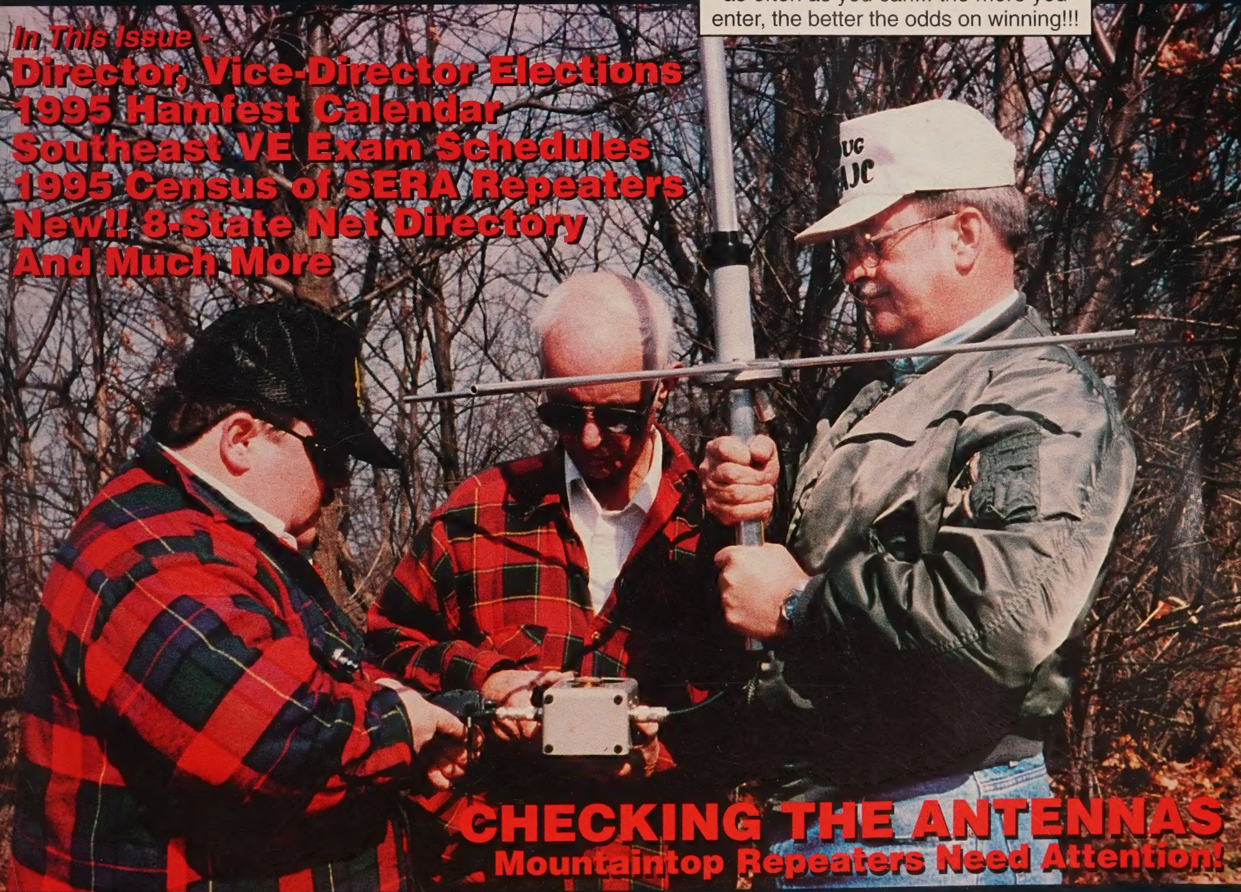
FEB., MAR., APRIL 1995 3.00

8-STATE REPEATER INDEX INSIDE

"ALIVE IN '95" CONTEST!
Read inside how you can have a chance at $$$ Thousands in prizes merely by signing up new SERA Associate Members. It runs till Labor Day, so You've got loads of time to enter as often as you can... the more you enter, the better the odds on winning!!!

In This Issue -

- Director, Vice-Director Elections
- 1995 Hamfest Calendar
- Southeast VE Exam Schedules
- 1995 Census of SERA Repeaters
- New!! 8-State Net Directory
- And Much More



CHECKING THE ANTENNAS

COMET

MODERN, MULTI-BAND ANTENNA SYSTEMS

MOBILE ANTENNA PRODUCTS

Modern, high-performance stations use COMET Antennas, Duplexers, Triplexers and Accessories! COMET products are designed to provide an exceptional level of signal quality and coverage area. Whether operating mobile or from your base station, COMET products make you sound good. No other product line has the selection, convenience, quality and performance!

DUAL-BAND MOBILE ANTENNAS

FL-67S Dual-Band 146/446MHz w/Fold-Over, No Ground Plane Required

Gain & Wave:	VSWR:	Max Power:	Length:	Connector:
146MHz 4.5dBi ⅝ wave 446MHz 7.2dBi ⅝ wave x 3	1.5:1 or less	150 watts	4' 11"	Gold Plated PL-259

FL-62S Dual-Band 146/446MHz w/Fold-Over, No Ground Plane Required

Gain & Wave:	VSWR:	Max Power:	Length:	Connector:
146MHz 3.5dBi ½ wave 446MHz 6.0dBi ⅝ wave x 2	1.5:1 or less	150 watts	3' 5"	Gold Plated PL-259

NEW!

SB-7/SB-7NMO Dual-Band 146/446MHz w/Fold-Over, No Ground Plane Required

Gain & Wave:	VSWR:	Max Power:	Length:	Connector:
146MHz 4.5dBi ⅝ wave center-loaded 446MHz 7.2dBi ⅝ wave x 3	1.5:1 or less	70W FM	4' 7"	PL-259 or NMO style

NEW!

SB-5/SB-5NMO Dual-Band 146/446MHz w/Fold-Over, No Ground Plane Required

Gain & Wave:	VSWR:	Max Power:	Length:	Connector:
146MHz 3.0dBi ½ wave 446MHz 5.5dBi ⅝ wave x 2	1.5:1 or less	120W FM	38"	PL-259 or NMO style

NEW!

SB-2/SB-2NMO Dual-Band 146/446MHz

Gain & Wave:	VSWR:	Max Power:	Length:	Connector:
146MHz 2.15dBi ¼ wave 446MHz 3.8dBi ⅝ wave	1.5:1 or less	60W FM	18"	PL-259 or NMO style

B-10/B-10NMO Dual-Band 146/446MHz, Cellular Look-a-like

Gain & Wave:	VSWR:	Max Power:	Length:	Connector:
146MHz 0dBi ¼ wave 446MHz 2.15dBi ½ wave	1.5:1 or less	50W FM	12"	PL-259 or NMO style

B-20/B-20NMO Dual-Band 146/446MHz, Cellular Appearance, No Ground Plane Required

Gain & Wave:	VSWR:	Max Power:	Length:	Connector:
146MHz 2.15dBi ½ wave 446MHz 5.0dBi ⅝ wave x2	1.5:1 or less	50 watts	30"	PL-259 or NMO style

NEW!

SB-25/SB-25NMO Mono-Band 146MHz w/Fold-Over, No Ground Plane Required

Gain & Wave:	VSWR:	Max Power:	Length:	Connector:
146MHz 4.1dBi ⅝ wave center loaded	1.5:1 or less	100W FM	4' 9"	PL-259 or NMO style

COMET products are available from most major dealers. For customer service, or a complete catalog, please call us at 800/962-2611. We're confident COMET products and accessories will enable you to enjoy Amateur Radio to its fullest!

MINI SPEAKER/MIC

HM-P2K/F
Mini spkr/mic featuring full TX/RX quality!

Light weight, extremely small: 1'x2" with collar pocket clip.

HM-P2K: Kenwood Version
HM-P2F: Icom/Yaesu Standard/Alinco/etc.

TRI-BAND MOBILE ANTENNAS

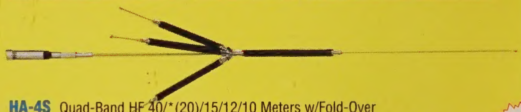
CX-224/224NMO Tri-Band 146/220/446MHz, w/Fold-Over, No Ground Plane Required

Gain & Wave:	VSWR:	Max Power:	Length:	Connector:
146MHz 2.15dBi ½ wave 220MHz 3.6dBi ⅝ wave 446MHz 6.0dBi ⅝ wave x 2	1.5:1 or less	100 watts	3'	PL-259 or NMO style

FJ-15S Tri-Band 52/146/446MHz w/Fold-Over

Gain & Wave:	VSWR:	Max Power:	Length:	Connector:
52MHz 2.15dBi ¼ wave 146MHz 4.5dBi ⅝ wave 446MHz 7.2dBi ⅝ wave x 3	1.5:1 or less	120 W FM	4' 10"	PL-259

HF MOBILE AND HT ANTENNAS



NEW!

HA-4S Quad-Band HF 40/*(20)/15/12/10 Meters w/Fold-Over

Wave:	VSWR:	Weight:	Length:	Max Power:	Connector:
¼ wave	2:1 or less	1 lb. 14 oz.	4' 4"	120W SSB (200W SSB 28MHz)	PL-259

*L-14HS Optional 20 Meter Coil

SH-55 Super Flexible 146/446MHz HT Antenna

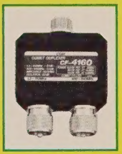
Gain & Wave:	Max Power:	Length:	Connector:
146MHz 1.5dBi ¼ wave 446MHz 3.2dBi ⅝ wave x 2	10 watts	15.5"	BNC

NEW!

CH-722SA High Gain HT Antenna
Gain & Wave: 146MHz 3.0dBi ½ wave
446MHz 5.5dBi ⅝ wave x 2
Max Power: 50 watts
Length: 35", 2 sections, 18" each
Connector: BNC

CH-32 Miracle Baby 146/446MHz HT Antenna
Gain & Wave: 0dB ¼ wave
Max Power: 10 watts
Length: 1.75"
Connector: BNC

DUPLEXERS AND MOBILE MOUNTS



CF-4106K, I, J,
146/446MHz

Band Pass, Ins Loss, Max Pwr.
1.3-150MHz, 0.1dB, 800w PEP
400-540MHz, 0.2dB, 500w PEP
Isolation: 60dB

CONNECTORS:

	4160K	4160I	4160J
Output:	SO-239	SO-239	SO-239
Low In:	PL-259	PL-259	SO-239
High In:	PL-259	N-Male	SO-239

RS-21
Trunk, hatchback, rear door (van, blazer, etc.) mount. Adjustable to virtually ANY angle. Rubber-coated base protects vehicle paint.

NEW!

RS-820
Heavy-Duty, Low Profile Trunk Lip or Hatch Back Mount. Rubber-coated base protects vehicle paint.

WS-1M
Multi-Adjustable Window Clip Mount.
11.5 feet of high quality coax.
Gold-plated UHF Conns. for Antennas up to 40" in height.

NEW!

3D4M Standard Cable Assembly
13.5 feet of low loss coax. Gold plated UHF (PL-259/SO-239) connectors.

3D5M Standard Cable Assembly
Same as 3D4M, but 17 feet of coax

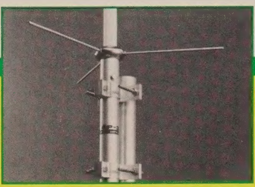
CK-5M Deluxe Cable Assembly
13 feet double shielded very low loss coax + 12" RG-188 teflon coax. Gold plated UHF (PL-259/SO-239) connectors.

CK-5M5 Deluxe Cable Assembly
Same as CK-5M, but 17 feet of coax

COMET

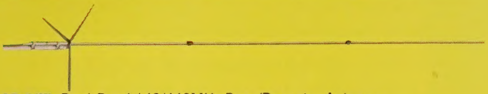
MODERN, MULTI-BAND ANTENNA SYSTEMS

BASE/REPEATER ANTENNA PRODUCTS



Featuring the COMET exclusive SLC System. The SLC actually increases the gain of the Dual/TriBand Antennas. A completely pre-formed phasing coil and phosphorous copper element produces a low-loss, highly effective, high gain antenna. All COMET antennas are pre-tuned and come complete will all mounting hardware. Simply mount to your mast and experience incredible COMET performance!

COMET DUAL-BAND

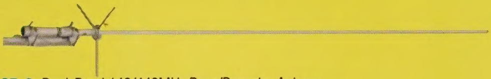


NEW!

GP-9(N) Dual-Band 146/446MHz Base/Repeater Antenna
Gain & Wave: 146MHz 8.5dBi ⅝ wave x 3 **VSWR:** 1.5:1 or less **Max Power:** 200W PEP
446MHz 11.9dBi ⅝ wave x 8 **Length:** 17' 8" **Weight:** 5lbs. 11ozs.
Connector: SO-239 (GP-9), N-type (GP-9N) **Mounts to Mast Size:** 1.25"-2.50"
Construction: Heavy duty fiberglass, 3 sections, 92MPH wind survival

NEW!

GP-6 Dual-Band 146/446MHz Base/Repeater Antenna
Gain & Wave: 146MHz 6.5dBi ⅝ wave x 2 **VSWR:** 1.5:1 or less **Max Power:** 200W PEP
446MHz 9.0dBi ⅝ wave x 5 **Length:** 10' 2" **Weight:** 3lbs. 8oz.
Connector: Gold-Plated SO-239 **Mounts to Mast Size:** 1.25"-2.50"
Construction: Heavy duty fiberglass, 2 sections, 112MPH wind survival



NEW!

GP-3 Dual-Band 146/446MHz Base/Repeater Antenna
Gain & Wave: 146MHz 4.5dBi ⅝ wave **VSWR:** 1.5:1 or less **Max Power:** 200W PEP
446MHz 7.2dBi ⅝ wave x 3 **Length:** 5' 10" **Weight:** 2lbs. 9ozs.
Connector: Gold-Plated SO-239 **Mounts to Mast Size:** 1.25"-2.50"
Construction: Single piece fiberglass, 130MPH wind survival

COMET MONO-BAND

CA-ABC23 Mono-Band 146MHz Base/Repeater Antenna
Gain & Wave: 146MHz 7.8dBi ⅝ wave x 3 **VSWR:** 1.5:1 or less **Max Power:** 200W PEP
Connector: SO-239 **Length:** 14' 12" **Weight:** 3lbs. 8 ozs.
Mounts to Mast Size: 1.25"-2.50"
Construction: Thick-wall aluminum, 3 sections, 70MPH wind survival

CA-712EF Mono-Band 446MHz Base/Repeater Antenna
Gain & Wave: 446MHz 9dBi ½ wave x 12 **VSWR:** 1.5:1 or less **Max Power:** 200W PEP
Connector: N-type **Length:** 10' 5" **Weight:** 2lbs. 12ozs.
Mounts to Mast Size: 1.25"-2.50"
Construction: Heavy duty fiberglass, 2 sections, 105MPH wind survival

CA-62DB Mono-Band 6 Meter FM Antenna
Gain & Wave: 52MHz 6.5dBi ⅝ wave x 2 **VSWR:** 1.5:1 or less **Max Power:** 500W PEP
Connector: SO-239 **Length:** 21' 8" **Weight:** 5lbs. 11ozs.
Mounts toMast Size: 1.25"-2.50"
Construction: Thick-wall aluminum, 5 sections, 100MPH wind survival

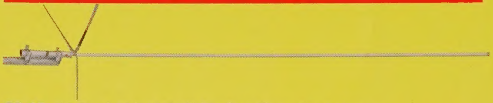
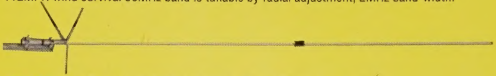
COMET TRI-BAND

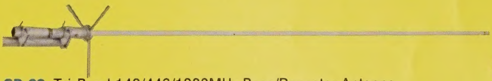


NEW!

GP-15 Tri-Band 52/146/446MHz Base/Repeater Antenna
Gain & Wave: 50-54MHz 3.0dBi ⅝ wave **VSWR:** 1.5:1 or less **Max Power:** 300W PEP
146MHz 6.2dBi ⅝ wave x 2 **Length:** 7' 11" **Weight:** 3 lbs. 1 oz.
446MHz 8.6dBi ⅝ wave x 4 **Mounts to Mast Size:** 1.25"-2.50"
Connector: Gold-Plated SO-239 **Construction:** Single piece heavy-duty fiberglass, 112MPH wind survival 50MHz band is tunable by radial adjustment, 2MHz band-width.

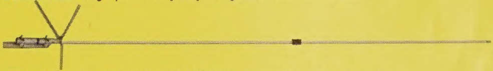


CX-333 Tri-Band 146/223/446MHz Base/Repeater Antenna
Gain & Wave: 146MHz 6.5dBi ⅝ wave x 2 **VSWR:** 1.5:1 or less **Max Power:** 120W PEP
223MHz 7.8dBi ⅝ wave x 3 **Length:** 10' 2" **Weight:** 3 lbs. 10 ozs.
446MHz 9.0dBi ⅝ wave x 5 **Mounts to Mast Size:** 1.25"-2.50"
Connector: Gold-Plated SO-239
Construction: Heavy duty fiberglass, 2 sections, 112MPH wind survival



NEW!

GP-93 Tri-Band 146/446/1280MHz Base/Repeater Antenna
Gain & Wave: 146MHz 4.5dBi ⅝ wave **VSWR:** 1.5:1 or less **Max Power:** 300W PEP (146MHz)
446MHz 7.2dBi ⅝ wave x 3 **Length:** 5' 7" 200W PEP (446/1.2)
1280MHz 10dBi ⅝ wave x 6 **Mounts to Mast Size:** 1.25"-2.50" **Weight:** 2 lbs. 8ozs.
Connector: Gold-Plated N-type
Construction: Single piece heavy duty fiberglass,112MPH wind survival



NEW!

GP-98 Tri-Band 146/446/1280MHz Base/Repeater Antenna
Gain & Wave: 146MHz 6.5dBi ⅝ wave x 2 **VSWR:** 1.5:1 or less **Max Power:** 300W PEP (146MHz)
446MHz 9.0dBi ⅝ wave x 5 **Length:** 9' 8" 200W PEP (446/1.2)
1280MHz 13.5dBi ⅝ wave x 12 **Mounts to Mast Size:** 1.25"-2.50" **Weight:** 3 lbs. 8ozs.
Connector: Gold-Plated N-type
Construction: Heavy-duty fiberglass, 2 sections, 112MPH wind survival

CROSS NEEDLE METERS

- Separate Meter and RF Sensor allows for convenient placement of the meter.
- Cross Needle Meter provides FWD, REF, and VSWR simultaneously.
- The RF-Sensor is a compact design, and has an extremely low-loss circuit.
- Beautifully illuminated when connected to power supply.
- 6 foot cable standard.
- Optional EKS-3 10 foot extension cable for a total of 16 feet between the sensor and meter.
- Compact Size: (L) 4.75" x (W) 1.75" x (H) 3.5"

HUSTLER
G6-270

HUSTLER®

NEW DUAL BAND 2 METER/440 MHz. G6-270R

The high performance of our well known G6-144 and G6-440 are combined in our new 2 meter/440 dual band vertical, model G6-270R.

A sleek, one piece tapered fiberglass radome eliminates the intermodulation and mechanical problems associated with two and three piece UHF radome designs.

Made in the U.S.A. of high quality American materials, the G6-270R offers

6 dBd gain (8.1 dbi)on both bands for outstanding fringe area performance.

The antenna is shunt-fed and D.C. grounded for lightning protection and will survive winds to 100 mph.

The G6-270R is factory tuned for quick and easy installation.

Model G6-270

Specifications:

Gain:	6 db VHF 6 db UHF
Bandwidth:	10 MHz UHF 3MHz VHF
Design:	4x5/8 wave collinear 440 5/8 over 5/8 collinear 2 meters Shunt fed-DC ground
Length:	100 inches
Weight:	6 lbs
Wind Survival:	100 mph
Mounting:	Includes hardware for 1-1/2" dia. mounting mast Mounting plate will accept 2" U-bolts, not included.
Termination:	Type N female

Page 1 - Editorially Speaking . . !

It's Another New Year for us!

Hope your year is starting off well.

From what I hear from various dealers of the two hamfests held in January, things must be looking up. Brisk sales were reported by most venders from both shows. They indicated things weren't quite as good as 1993, but in most cases were better than 1994 started. The old saying "so goes January, goes the year" seems to be the case in the Amateur business. It will be interesting to see what lies ahead for everyone in the months to come.

* * * * *

We got the entire Repeater Journal on Quark Express, our new desktop program this issue. David Ward, KA4LVO, our keeper of the records, worked and got a pretty good format for the repeater indexes. He made some changes on the by-frequency index. I like it! Another new feature of this issue of the Journal is a Net Register. Datasheets mailed to all repeater owners last Fall, had a place for them to list nets, with starting a listing in mind. The response was quite good - good enough to fill two pages. You'll find this new feature on pages 42 and 43 of this issue.

* * * * *

Our Membership contest is being launched this issue. We tried to get it going last year, but were unable to do so. Different conditions allowed us to go ahead this year. We don't have all the parts of it in place as of yet, but we'll be building on it as we go along. We will guarantee in excess of $2,000 in prizes, but the total will probably grow as we get more contributions from our faithful dealers. The SERA Board okayed a tidy sum to spend. You'll find complete details of the main contest on page 20. It has something for everyone, even clubs can make money, and dealers can compete for free Repeater Journal advertising.. Anyone who doesn't sit up and take notice to this contest, is too far gone to move. The odds will be much better than a hamfest, and the prizes will be much more than most hamfests. Contest ends in September when we'll have our drawing at the Shelby, NC hamfest. My goal is 2,000 new Associate Members. You gonna help me get it???? If we don't the Board is gonna string me up for sure.

* * * * *

David said he got the repeater indexes off to the ARRL in early January (on time). They will appear in the new ARRL National Repeater Directory which will be published at the end of April. We have a total of 2,006 repeaters listed in SERA territory.

* * * * *

We've been letting one of the operators at Royal Printing Co., in Johnson City (Benny Peterson's place) have a free hand at the design of our covers. Their first issue was the November one, they did great. (Since I haven't seen this one yet, I'll report later on it.)

* * * * *

Something I just stumbled on. For those of you who send us stories on disc. Please just type out the story, no line returns or anything, except at end of paragraphs. We noticed that some of the new word processing programs, when you do some fancy formatting, etc., it adds "garbage" to the information when I import your disc into the desktop program. Always save the story twice, under two different names. Once in the word processing format, and the other in ASCII. This gives us backup in case of problems. The question has also been asked, when can you download to us. Not yet! We're still learning this stuff we already have. Later on we hope to be able to download via telephone from you if you wish.

* * * * *

There is a noticeable shortage of news from some states. We're

About the SERA Repeater Journal Magazine

The SERA *Repeater Journal* is published quarterly, the first week of the months of February, May, August and November of each year and mailed free to members of SouthEastern Repeater Association, inc., an eight state repeater coordinating orgnization made up of repeater owners and users. Permission is granted for use of material other than repeater indexes contained in the *Repeater Journal* (See important note this page) provided proper credit is given. The *Repeater Journal* Editor will swap newsletters with other Repeater Organizations, News organizations and clubs upon written request. DEADLINES: Ad space reservations are the 20th of the month, and ad copy due the 1st of the next month, one month prior to publication. News deadlines are the first of the month prior to publication month. The *Repeater Journal* is entered as Third Class Mail at the Post Office in Greensboro, NC. The *Repeater Journal* newstand cover price is $3.00 and is available from numerous retail Amateur Dealers in the southeast. All news and newsletter exchanges should be mailed to the Editor: Wayne C. Williams, K4MOB, 600 Lakedale Road, Colfax, NC 27235.

About the SouthEastern Repeater Association, Inc.

SERA, SouthEastern Repeater Association, Inc. is one of the largest, most well known, non-profit Repeater Coordinating Organizations in the United States. SERA territory covers over 2,000 repeaters in member States of North Carolina, South Carolina, Virginia, Tennessee, West Virginia, Kentucky, Georgia and Mississippi. SERA celebrates its 24th anniversary in 1995 with a continuing goal - to serve the repeater owners and users of the Southeast by providing a voice of communications, information and education with the publication of the *Repeater Journal*, and the guidance of our State (Director) Coordinatiors, officers and volunteers. Your support, comments and reccomendations are appreciated.

About SERA Associate Membership (Repeater Users)

Amateurs, especially repeater users, are invited to join SERA as Associate Members. Only $8.00 per year will enable Amateurs to support the organization and receive the Repeater Journal. Associate Membership deadlines are the 15th of the month preceding months of publications - (Jan. 15, April 15, July 15, and October 15). Persons joining or renewing their memberships must have their application into the Tobaccoville Post Office Box by those deadlines to receive the next upcoming Repeater Journal , published the first week of February, May, August and November. Memberships received after any deadline will not receive next to-be-published Repeater Journal, but instead will receive the forthcoming issue the following quarter. HOT-P Associate Memberships (Repeater Journals mailed 1st Class rate) are limited to one year memberships at $14.25 per year. Regular membership Repeater Journals are mailed 3rd Class Bulk Mail. SERA does not issue receipts for Membership applications, nor are Repeater Journals forwarded to new addresses. If you move, we must be notified. Members should wait until next Repeater Journal comes out to report any problems. Write SERA Associate Membership, P.O. Box 215, Tobaccoville, NC, 27050-0215. Associate Members may hold appointive offices and positions within the SouthEastern Repeater Association, Inc.

About SERA Full Repeater Membership (Repeater Owners)

Officers and Directors are elected from Repeater representatives who are SERA Full Members. Any repeater owner or club may join SERA as a Full Member if they have an operable repeater on the air. Full Membership application, coordination information (if not on file) and $20.00 should be submitted for the annual Full Membership fee. Two Full Members, named and listed on the application by the owner, receive the Repeater Journal from each application. The Full Member repeater is also appropriately recognized as a SERA supporter in the repeater index with an asterisk (*) code. All Full Memberships expire on December 31 of each year. Write SERA Membership, P.O. Box 215, Tobaccoville, NC 27050-0215 for further information.

FCC Year-end Statistics

-from W5YI Report

The September 1994 fiscal year-end of the FCC contained some interesting figures. There are 62% more amateurs than 10 years ago. Three fourths of the total increase are Technician class licensees now representing 40% of all Amateurs.

Another startling figure - There are more code proficient Technicians (Tech Plus) than than No-Code Techs.

At year end the FCC reported 664,650 licensed Amateurs in the United States.

Ten States represent more than half of the US Amateur population (53.7%).

California boasts the most hams with 101,391, followed by Florida with less than half as many, 40,945. Third through tenth are Texas, New York, Ohio, Pennsylvania, Illinois, Washington, Michigan and New Jersey.

SERA States in the top 20 states include North Carolina 11th, Virginia 12th, Georgia 16th and Tennessee 17th.

WIN PRIZES! SEE PAGE 20!

FAR Scholarships

The Foundation for Amateur Radio, Inc., a non-profit organization with headquarters in Washington, DC, plans to administer 56 scholarships for the academic year 1995-96 to assist licensed Radio Amateurs. The Foundation composed of over 75 local area Amateur Radio Club, fully funds five of these scholarships with the income from grants and its annual Hamfest. The remaining 51 are administered by the Foundation without cost to the various donors.

Licensed Radio Amateurs may compete for these awards if they plan to pursue a full-time course of studies beyond high school and are enrolled in or have been accepted for enrollment at an accredited university, college or technical school. The awards range from $500 to $2,000 with preference given in some cases to residents of specified geographical areas or the pursuit of certain study programs.

Additional information and an application form may be requested by letter or QSL card, postmarked prior to April 30 from: FAR Scholarships, 6903 Rhode Island Avenue, College Park, MD 20740.

The Charlotte Hamfest does NOT receive any income from parking fees

NO OUTSIDE TAILGATING Permitted by the Merchandise Mart

No weapons for sale or display. **No Smoking on the main exhibit floor.**

Electricity Available at extra charge.

SERA Board Meets; New Directors & Vice Directors Installed

Editor's Note: The SERA Board was scheduled to meet on January 28 & 29, 4 days after the Repeater Journal was taken to the printer.

Highlights of Scheduled Meeting

ELECTIONS - All existing Directors and Vice-Directors were re-elected for a 1995-96 term except for Vice director of North Carolina. The Georgia Director was opposed and an election was held, with the incumbent, Stu Simms winning a close election. A total of 58% of eligible Repeater owners in Georgia returned ballots, re-electing incumbent Simms, N4MXC over Jerry Guy, N4MTA by 57%.

There was no nomination for Vice-Director of North Carolina, however, Linville P. Couch, K4OLC of Hickory was appointed by the President. He was expected to be confirmed by the Board at the annual meeting.

All Directors, Vice-Directors and Assistants are listed on page one under their representative state.

Adjustment to Coordination Policy

The Board was to vote on adjustments to the SERA Coordination Policy. According to Alex Hedrick, N8FWL, SERA Secretary, most all proposed changes were to clarify, close loopholes and enhance language in the document.

Steve Grantham, N5DWU, Mississippi Director presented proposed changes for a geographical use of PL tones for repeaters. He also had to make minor changes to the 430-450 MHz Frequency Utilization Plan which was approved at the mid-year meeting last Summer.

Packet Interests Attend

From invitations, several Packet groups were expected to attend the SERA Board meeting to give valuable input as to what is needed and expected from SERA as far as digital operation is concerned.

Reports

Reports were to be given by each of the Directors and/or Vice Directors about conditions in their districts.

Executive staff reports were given by the Secretary, Treasurer, Publications and Membership/Records.

David Ward presented a proposal to the board, to hire part-time help to keep the data processing and filing for the organization. The person is not a ham, and would not violate the rule of no hams being paid for services to SERA. The proposal was expected to be approved. This would greatly enhance the data flow between Ward, the Directors and the Repeater Journal.

VIP Visitors

In addition to representatives from several Digital organizations, David Baughn, KX4I of the Alabama Repeater Council, and Owen Wormser, K6LEW President of T-MARC were expected to attend and speak before the group.

What Do You Think?

Is SERA doing the job you think should be done in coordination, and communication? Are your Directors and vice-Directors taking care of things at "home" in your district? Is the Repeater Journal the kind of magazine you want? What's missing, what should be added? Should we try to grow?

If you have any input, write the editor - whether you agree or have constructive criticism. (about SERA only)

We will try to publish as many letters as we can next issue in May, if we can't get them all in, we'll see that it is equally balanced. Please try to keep your comments to 50 words or less (just meat and potatoes info)

Be sure to sign your letter. We will withhold your name if you ask, or use initials and state. Let's hear from you! We reserve right to edit or delete if need.

Clubs Can Make Money on SERA Memberships

Ham clubs can now make money by signing up SERA Associate Members. Every person signed up through the club and submits the $8.00 annual SERA membership fee - the club keeps $1.00 and sends SERA $7.00. A club can sign up 100 members, and make $100.00!

Clubs wishing to participate MUST write for instructions and a check-off sheet either from Wayne Williams, Journal Editor or from David Ward, Membership Chairman. Addresses may be found on Page 2. A SASE must be enclosed.

WIN PRIZES!!!

Copy the special Associate Membership application in this Journal. Sign up as many friends as you can. Each new member is an entry for you to win part of Thousands of $$$$$ in Amateur equipment prizes.

Special drawings at the Shelby, NC hamfest on Labor Day Weekend!
See Rules and details on Page 20!!

WIN A FREE 2M MOBILE STATION

Consists of 2M Xcvr, and Mobile Antenna - Valued at over $400.00

The SERA Repeater Journal Annual Repeater Census

440 Repeaters Continue Rapid Growth

-by Wayne C. Williams, K4MOB
Editor - The Repeater Journal

For the seventh straight year, the 70 cm band has shown the way in the numbers of new repeaters being placed on the air. In 1994, a total of 70 new 440 machines came on the air in the SERA 8-state area. This compares with only 20 additional 2M machines. In 1993, we got 95 more 440 machines and 46 more 2M machines.

Today, 2-Meters represents 52% of all machines on the air, while 440 keeps climbing and is now 32% of all machines. (In 1994, 440 gained 3 percentage points on two meters.)

FEBRUARY 1995 SERA REPEATER CENSUS

TOTAL ALL REPEATERS - PER STATE PER YEAR

DIST	86	87	88	89	90	91	92	93	94	95
NC	220	211	212	220	228	238	267	312	341	377
SC	83	82	83	84	92	97	113	117	126	131
TN	191	209	218	271	283	291	335	351	392	398
VA	168	172	193	203	158	183	194	211	229	232
WV	84	90	91	92	96	101	104	104	126	128
KY	25	31	39	123	120	128	159	170	193	205
GA	184	196	218	246	261	274	310	322	353	372
MS	X	X	X	84	88	96	119	128	145	163
TTLS	955	991	1054	1323	1326	1408	1601	1715	1905	2006

FEBRUARY 1995 SERA REPEATER CENSUS

REPEATERS PER BAND - PER STATE

DIST	10M	6M	2M	220	440	920	1.2G	TTL	DIST
NC	6	20	174	47	127	0	3	377	NC
SC	0	2	80	19	29	0	0	131	SC
TN	5	17	189	49	131	2	4	398	TN
VA	2	9	116	25	75	3	2	232	VA
WV	2	2	89	5	30	0	0	128	WV
KY	0	4	118	16	67	0	0	205	KY
GA	3	16	168	51	130	2	2	372	GA
MS	2	2	103	9	47	0	0	163	MS
TTLS	20	72	1037	221	636	7	11	2006	

This doesn't mean that hams are turning away from 2-Meters. It merely confirms what our coordinators have been saying for several years now, the 2-meter band is full for most places. Prospective repeater owners are becomming comfortable of placing a 440 machine on the air instead of 2M.

Here is a breakdown of how 2M and 70 Cm fared in our states last year. Figures given are overall increases or decreases in total numbers of repeaters for that band:

	2-Meters	440 Mhz	All
NC	+4	+22	+36
SC	+1	+3	+5
TN	+3	+7	+6
VA	-4	+10	+3
WV	+2	0	+2
KY	+8	+4	+12
GA	-2	16	+19
MS	+8	+8	+18

In overall growth, North Carolina led the way with a total of 36 more machines on the air. Georgia was second with 19, Mississippi with 18 and Kentucky with 12. The rest of the states only had modest growth for the year.

One note of interest, Tennessee lacked only 2 repeaters to bypass the 400 mark, it wound up with 398 - still our biggest repeater state. North Carolina has moved into 2nd place, passing Georgia which now ranks 3rd in repeaters.

Looking at repeaters by band for the year of 1994. There was a decline on 10M and 920 MHz and 1.2 GHz, but gains in all other bands. 10M lost 2 repeaters, 6M gained 5, 2M gained 20, 220 gained 14, 440 gained 70, 920 lost 1 and 1.2 ghz lost 3, for an overall gain in the 8 states of 101 repeaters.

tales from the happy hamette

-by CINDY ROGERS, KR4LS
545 WATERBURY DRIVE, FAYETTEVILLE, NC 28311

The Happy Hamette plays In the Traffic

Almost the second that I got my first Amateur License, my Radio Romeo did several things simultaneously: sped off to the two-day MS Bike-a-thon to help provide communications, thrust a 2M HT in my hand, yelled frequencies at me and told me to "take his traffic" on PCTN if he didn't get back. Helping the MS cyclists, I understood. I had a vague understanding of the Radio.

The first time I turned it on, we looked at each other. It screamed "Sqqqquuuueelllcchh" at me and I screamed back at it. I talked to the repeater IDer for 3 minutes before I realized that "he" wasn't going to say anything original back. Seemed an apropos way to meet my new little friend-to-be. But, "take my traffic"?!? Do what? I immediately thought, Jim can't drive. I can't drive.

Is this some kind of secret blind HAM thing that lets us drive with radio-controlled cars or something?" More HAM mysteries. And I don't even know the HAM Secret Handshake yet! I looked at the radio, my beloved car, Ralph T. (for Toyota, silly) Rogers, and screamed again. I told Ralph to just stay in the driveway. I had to find out about THIS quick. Sounded TOO weird - even for me.

Turns out, I love to go out and play in the traffic - on the Radio. Traffic can be real lifesaver, literally. At the very least, it is a pleasant way to say "Hello", "Happy Birthday", and other messages of concern. "Traffic" is the Amateur word for and method of passing messages of emergency, priority, health, welfare and friendship over the radio. It is done by voice, Morse Code, packet, and other digital means in structured traffic nets. Handling messages is soo much fun! It is done through the National Traffic System. NTS traffic consists of a clearly written message of about 25 words or less, with name, address and phone number of the addressee. It's good to keep a log or an index card file to get to for later reponses. NTS provides communications for NOAA/NWS, emergency management and other service workers during area and local disasters. NTS is at it's best during times of crises.

And when no other method works, Morse code wil even in the most difficult of situations. Maybe all Amateurs can and should train to be able to send messages as a way to introduce non-Amateurs to our hobby and provide this service for our communities. For such emergencies we also learn to set up and maintain communciatons at a moment's notice in any condition. You never know. You just never know. Being prepared for emergencies is the essence of Field Day, by the way.

Some HAMs, upon listening to some of the NTS nets, think the "Happy Birthday" messages are foolish. They feel that these messages are beneath them to handle. I have delivered "Hello" messages to people who said that it made them happy that someone cared and glad that I called. I don't know who ended up the happiest, the recipient or me! The "High" HAMs want the prestige of checking into a HF or VHF traffic net but don't want to actually have to really "handle" messges themselves.

That is sad. Betcha they will wish they had learned to handle traffic if there's a tornado, severe thunderstorm, major fire, flood, hurricane or some civil emergency. If HAMs know how to make up the traffic and know the emergency procedures then they can really help their families and their communities avert further disaster.

Thus, knowing how to handle "Happy Birthday" messages becomes something quite marvelous. Traffic handling is another form of the Radio Art and Science. We can't spend all our time just learning what kind of paint to use to redo our husband's HF rig to a Teal Green to match the curtains and other important innovations.

Wanna go play with the traffic, Little Boys and Girls? Cindy!!

Full Membership off to Great Start!

Sending out data sheets earlier than usual in '94 had a very positive effect on SERA Full Membership. When we closed our quarter files, total Full Membership for 1995, after only 12 days into the year, stands at over 1,040 member repeaters.

This is only 72 repeaters less than we had for the entire year of 1994, which is the best start we've every had in Full Membership. Even adding on the 1995 Census correction of repeaters, we managed to start out with 51.8% of all the 2,006 repeaters in SERA territory signing up.

If You Would Like
To Join SERA as a
Full Member
Repeater
Fill Out the
Application
In this issue, and
Send it in!

North Carolina leads in total repeater members, Virginia leads in percentage as we start off another year.

A very interesting note, even though we are down 72 members from 1994 totals, if you look at South Carolina, West Virginia and Kentucky, they actually are starting off the new year with **more** members than they had in all of 1994.

Additionally, Mississippi is only 4 shy of their last years total, and Georgia only 8 shy of all of last year.

It is a great thing to know that over half of all the repeaters in SERA territory have already voluntarily joined as Full Members. Membership is not required, it is strictly a voluntarily measure. A repeater owner may choose to join, or he may not, it makes no difference in the way he is treated, or how we coordinate, or whether he gets updated information. If he doesn't join, he doesn't get the Repeater Journal, and of course cannot vote in any election process. His repeater is listed in the SERA Repeater Index, of course, but he is not shown as a member of SERA.

The Board and all of us who "work" on the Staff thank each of you for joining, your response renews our faith and will push us forward, stronger and better than every before.

If you are a repeater owner or sponsor, and would like to join SERA, there is a short form Full Membership Application in every issue of the Repeater Journal. Fill it out and send it in, we'll take it from there.

SERA - SouthEastern Repeater Association, Inc.-Full Membership

Full Membership - By State - By Year - From 1986 to Present.

Vanity Call Signs Still on Hold

-via W5YI Report

It was a year ago that the FCC released PR Docket 97-305, asking for comments on a proposed "Vanity Call Sign issueing program. Hams anxiously waited throughout the summer and into the fall, but so far nothing as of yet.

The Commission has proposed the issuance of a special call sign for a cost of $70 for a ten year term. Licensees would have only one station call sign, and their previous call would be immediately available for reassignment.

The FCC said the details of how the new "vanity" call sign system worked would be detailed in a public announcement that would be issued.

The "vanity" call sign proposal was made possible in part by the installation of a new data processing system at the Gettysburg licensing facility.

On another front - the ARRL has petitioned the FCC to make the operator portion of a license for life. This would prevent persons who forgot to renew having to retake exams.

It's Another New Year for Us! (Editorial)

(Continued from Page 1)

still looking for some writers, and we aim to fire some from some other states who are not doing you justice. If you're a good writer, and travel around a bit, you're invited to contact me and we'll consider giving you a correspondent "title". The pay is not much, but the feeling of helping your fellow ham is great. Every SERA state deserves good coverage in the Repeater Journal. I'll have to brag about the excellent coverage that Gene and Ted give North Carolina and West Virginia. Wish we had 6 more like them. Our new correspondent, Ed Frank is doing well for his selected portion of South Carolina coverage.

* * * * *

As I do often every year, I remind all readers that NO person in SERA, the Board, appointees, or any other ham who does any kind of job for SERA is allowed to receive any pay of any type. Any official who advertises in the Repeater Journal pays for their ad just like anyone else. The only thing officials get are reimbursements for telephone calls and for postage used in the business of the organization. At Board meetings, they receive free lodging and meals, they still have to get there at their own expense.

* * * * *

This is SERAs 24th year. We've kind of watched things for the past few years - but this year, I have a feeling something is going to happen in terms of growth. We don't solicit new states, but there are several looking at us, and I feel one or more of the just might make the move in 1995. It's a well known fact that SERA is the most well organized coordinating organization in the nation. We even have six repeaters from out of our states joined us - just to be a part. We can offer them nothing but the Journal, but they still joined!

-Wayne C. Williams, K4MOB, Editor

West Virginia Notes - *by Ted Wolfe*

Send News to: WD4KHL P.O. BOX 133, CABIN CREEK, WV 25035

Garry White, WD8OMB, Hurricane, is my best friend. His brother, Shirl, KD4HB, lives in Columbia, SC. For nearly two years Garry and I sought a path to Shirl for keyboard contacts. We had no luck. That is until several months ago when Bruce, KB8KAC, relayed to me the news that Tim, KC8IT, at Mullens, had put a SEDAN node on the air near there.

I was able to connect to the node at night (but not during the day). After experimenting a while, I was able one night to secure a connection to Shirl in under four minutes and we enjoyed a half hour qso. We've had many connects this way since.

SEDAN = Southeastern Emergency Digital Amateur Network(s) is a system with nodes in most of the Southeastern states. It is designed for emergency use, and for everyday keyboard-to-keyboard contacts. There are no BBS connects permitted, and no connects with DX clusters are allowed.

We had often discussed putting a node of some sort at Garry's hilltop qth (on Sycamore ridge) just outside the town of Hurricane in Putnam County. We wrote to Buck Rogers, K4ABT, in Evington, Va., to find out how we could go about affiliating with SEDAN. After conferring, Buck burned the chip for us with the X-1J2 software. Shirl provided an MFJ-1270 tnc and some cash from the sale of an old computer. With the cash we purchased a Midland 13-510 (hope I remember the model correctly). I sent away for an Isopole. Garry provided the tower, and for now his two-meter beam. The Isopole should be atop the array by the time this is printed. The node is HWV:WD8OMB-7.

We have let the local ham packet community know the node is up and have invited use. We may later this summer want to put another node in or near Charleston. Bill Loftis, N8RKU, a Charleston city employee, thinks he may be able to secure us position on a city tower at Malden, near Campbell's Creek, just east of Charleston.

I can't hit our own node directly from my qth. By the way, the SEDAN frequency is 145.770. If we can get another node at Malden, only 10-miles from my QTH, I should be able to hit it. I hope we can make this a reality in 1995.

Any ham wishing a copy of the SEDAN node map can get one by sending a request and an SASE to: Buck Rogers - K4ABT, 211 Luenburg Drive, Evington, VA 24550.

* * * * *

Shortly after this issue of the Journal reaches you the Fayetteville, WV, hamfest opens. It is scheduled for Sunday, Feb 26, 9:00 a.m. to 4:00 p.m., again at Fayetteville High School.

The sponsoring Plateau Amateur Radio Association had a half page ad in the last issue of the Journal, so the event should not come as a surprise. As the first hamfest of the year we here always look forward to Fayetteville.

* * * * *

As this is written "Big Bob" Welling, KA8MLQ, Dunbar, faces more surgery in early January (after this has been forwarded to the Editor). He suffered a heart attack during the fall.

I have also learned that Jobill Campbell, KA8CGU, Lansing (near Fayetteville) has had a stroke and is confined to a wheelchair. It was just over a year ago that I learned of his loss of his home in a fire. He resides in a mobile home near his old homesite. By the time you read this I hope we have been able to organize a work party to get some of Jobill's antennas back in the air so he can enjoy his hamming even from a wheelchair.

Denver Stricker, N8ELD, Belle, is another who has suffered a stroke since late October. I encountered his wife in December at the Belle Flea Market and that is when I learned of his misfortune. He is at home as this is written.

* * * * *

I received a letter with no return address recently, and it was not signed inside either. The sheet inside contained news of activities of the amateur group in the Lewisburg and Greenbrier County area. Correspondents there have been rather loyal contributors to this quarterly column so I am going to use the material. But, fellows, please--next time give me a name and a callsign. I may need to phone you for more information on an item sometime

* * * * *

Bill, WA8FZG, received a call on Monday, Oct 3, from the county OES that a search was underway for a parachutist alleged down near the Virginia border. No one had been reported missing but a search had begun Sunday afternoon. Bill got on the 147.390 repeater and spoke with Rob, KM8S, who was in the field. Bill then activated the Greenbrier County Emergency Services net. The net was turned over to Calvin, KB8LPP, around noon. A bunch of balloons were found lodged in a treetop and it was decided this was probably what had been seen and led to the parachutist report. Other hams who stood by to assist, if needed, were: Bill, KB8NWU; Herb, KF8ZH; Mat, N8UHO; Lynn, AI8I; Roy, KB8NCZ; Hank, N8ZHX; and Norm, WA8AVZ.

Also during October the club assisted with TOOT (Taste Of Our Town), and a 10-k race in Lewisburg. The club communications trailer was on station to provide coordination between Police, emergency workers, and race officials. Dave, NY8G; Wayne, WB8SPW; Leonard, N8DIS; Herb, KF8ZH; Mike, N8VXL; Connie, KB8TEI; Gary, WV8D; Norm, WA8AVZ; Bill, KB8NWU; and Kitty, N8PKQ, all worked the event, along with Helen, wife of N8DIS, who kept the coffeepot going at the communications trailer.

Another group of volunteers went to Keeney's Knob on Nov 12 to remove the old 146.730 repeater, which is to be refurbished and used as a spare. The new repeater is reported working fine, according to Wayne, Gary, and Connie who were in the work party.

The Southern West Virginia ARC Thanksgiving-Christmas dinner was held Nov 19 at the Ranch Room at Greenbrier Valley Airport. About 35 members and guests were in attendance.

* * * * *

I was unable to attend the holiday dinner of the West Virginia Amateur Radio group at

Continued on Page 14

West Virginia News Continues

Hurricane before Christmas, and have heard no reports from it over the air--but then I am on packet a lot anymore and miss a lot on the repeaters.

And the annual Kanawha ARC dinner is held in Janury, so any report on that has to be in the NEXT issue of the Journal.

* * * * *

I suppose all of you who try to keep up with all the news saw where the new emergency warning system called EAS (for Emergency Alert System) replacing the old EBS (Emergency Broadcast System). The new EAS incorporates digital techniques.

Broadcasters were required to participate in the EBS and will likewise be required to participate in EAS. Radio and TV stations will be required to replace the old equipment with new EAS equipment by July 1, 1996. Because the cable industry is relatively new to EAS, they will be given till July 1, 1997 to comply. The BBS messge I picked up from packet on the subject was much longer and more detailed but this note should make you aware of the change so that if you need more information you can seek it out.

* * * * *

Since the last Journal I have had several notes from Alex Hedrick, Jr., vice director of SERA in WV. Included was paperwork for three repeater coordinations granted on Nov 12. They were: KA8OTX at Beckley for 29.520 in and 29.620 Out, linked via a 440 Mhz band frequency. The transmitter location is Spruce Mtn; Receiver on Mann Mtn. This was a move of an existing repeater sponsored by Applachian Repeater Association - NORTHfor purposes of site security and accessibility. The repeater has been on the air since May, 1991 from an original location on Bolt Mtn, west of Beckley. The new site is NNE of Beckley. The Trustee is James A. Johns, KA8OTX, Fayetteville.

Another move approved was that of the Princeton Repeater Association's WB8NRN (147.825 in, 147.225 out) to Kate Roland Mountain just outside Princeton. Trustee Bob J. Frazier, WB8NRK, explained the move was only 1.959 miles WNW from the old site. The original repeater has been on since June, 1989.

Also granted was coordination to Raymond A. Glaser, AA8MR, Huntington, WV, for a new repeater (449.850 in, 444.850 out) to be located at Barker's Ridge near Lesage, WV. A link frequency will be used to connect to an auxiliary receiver in downtown Huntington.

* * * * *

From the Kanawha ARC: Doug Sweeney reported in the monthly CHIRP (which is published between the quarterly issues of the regular KARC newsletter, SPLATTER) THAT THE "911 Bandidiot" was still calling 911 metro on the club's repeater autopatch and not identifying him or herself. The club is acquiring new equipment which will permit it to identify abuses of this type on the repeater. He said the new PC based equipment can actually "fingerprint" a transmitter. The repeater committee is also working on an intermod problem caused by one of the Charleston area paging systems.

Dave Mickel, KB8PFZ, will be looking for volunteers later this year to assist in KARC participation in the 1995 Boy Scout Jamboree on the Air (JOTA), which will be held in October. Dave discussed the matter with the local BSA Buckskin Council and has agreed to work with Troop 4 in manning an amateur station for this international scouting activity.

Over 50 KARC club members who attended the November meeting remained after the business session for a program presented by Bill Walker, NK8Y, and Dave Comstock, W8HYX, on their recent visit with the local amateur astronomy club (Kanawha Valley Astronomical Society) to the National Radio Astronomy Observatory at Greenbank, West Virginia. During the visit they had the opportunity to utilize one of the 40-foot dishes to monitor the stars.

The telescope used by the club members is one of six at the observatory. Walker, an electrical engineer at Union Carbide, said the visitors got copies of all the computer data from their star gazing and would be spending some time analyzing the data.

The visit got a good play in an article in one of the Charleston newspapers, with three nice color photos accompanying the spread.

I would like to share a portion of a paragraph from an issue of the Amateur Radio News Bulletin of the Triple States Radio Amateur Club at Wheeling. What caught my eye was something about Internet. It said Internet... is an international collection of 2.2 million computers at universities, corporations and government agencies and used by more than 20-million people.

I can buy the number of users, but the number of computers using Internet seems a bit high. As someone explained to me some time ago, the Internet is a network of networks. As yet I have not advanced to the point where I am an Internet user--but a lot of hams apparently are.

There is lots more for me to include this issue from TSRAC.

The club held its annual (1994) Recognition Dinner at "Something Special" (a location in Martins Ferry, Ohio) on Sunday, Nov 20, affording it an opportunity to honor members for past and present services.

The TSRAC ARNB for January (received here in late November)
had full details. Space here doesn't permit the citations but certainly a listing of recipients is in order. The TSRAC Amateur of the Year award went to Tom Heise, N8VUN, Glen Dale, WV.

The Service Award of the Year recipient was John C. Demuth, K8CQA, Uhrichsville, Ohio

West Virginia Notes Continues

Life Membership Awards (#16 through #19 in the series) were presented to: (#16) - Larry Evans, W8CAL, Glen Dale, WV; (#17) - Ken J. Weaver, WA8DQR, Morgantown, WV; (#18) - Dick McGee, KA8CDF, Shadyside, Ohio; and (#19) - Betty Harris, KB8BUZ, St. Clairsville, Ohio.

Two of the new Life Members of TSRAC are club old timers. Evans is on the roll as member #8; Weaver as member #21. So, both are long time supporters of the club and its activities.

A new, serious, most honorable Award is the TSRAC Humanitarian Award, which goes to members who perform a service for their fellowmen. Two TSRAC members earned the honor for 1994.

One went to Robert Friebertshauser, W6YMR (member #3365), of Redwood City, CA. Bob, an unpaid volunteer, works as a communications specialist in the office of Manna International which is headquartered in Redwood City. His wife, Virginia, KD4NBW, a volunteer also, is office coordinator for Manna.

The other award went to the Reverend Allin Sharp, NG8Y, St. Clairsville, Ohio. This old timer, member #342, was honored for raising funds to construct a communications system in Lesotho, Africa, and for his humanitarian duties with a religious Amateur Radio group.

The TSRAC 1994 Field Day Champ award winner was Ray Merritt, N8VZL, Shadyside, Ohio.

TSRAC is a dynamic club active in many activities with members in every state in the union who receive the club's ARNB.

* * * * *

A new publication called the "Amateur Radio Trader" is off and running in competition with the "Yellow Sheet." It is from TAP Publishing, Crossville, Tn. They sent me a review copy.

There are two kinds of establishments I should stay out of--office supply and hardware stores. Why? Because there are so many gadgets you'd like to have even though you really don't need them. And I love gadgets. Often at flea markets I pick up things like dentists' picks and mirrors, miniature oilers, wear on the keychain folding scissors or tire guages or snap back rulers, tweezers, you name it. They can be useful in the ham toolbox, too. You're probably the same way but with a weakness for other type gizmos or gadgets or thing-a-jigs.

* * * * *

First time I really noticed it was in last issue of the Journal. There I discovered that the editor is now listing me on the masthead (near the bottom, of course). But I thank you, editor K4MOB, for the honor of being listed as one of the Journal's State Editors.

Fred Jones, WA4SWF, at Louisa, Ky, indicated he might have some items for me. But no information had arrived by the time this was put on disk in order to be mailed when PO reopens Tue., 3 Jan, after the holiday. If anything should come in as I mail this out, I could type it up, put it on disk and send it to the editor the next day and maybe he would get it in time to include it with this.

Which is an opportunity to remind contributors to send me your notes, stories, etc., to reach me a week or two ahead of MY deadlines--which are: 1 Jan for the Feb issue; 1 Apr for the May issue; 1 July for the August issue; and 1 Oct for the November Journal. There is a tiny bit of leeway when one of these dates falls on a weekend or a holiday.

Your ideas, suggestions, or comments are always welcome. My mail address is: PO Box 133, Cabin Creek, WV 25035. Or address packet mail to:

WD4KHL @ WB8CQV.WV.USA.NA.

PS - to the editor: When I explained to those who asked that I send my column in on a disk done with WordPerfect, plus one hard copy printout, I was asked when I would move ahead and do it by phone modem or fax. I am not ready for that yet--a 14.4kb modem is on my wish list--I just purchased a color monitor for my computer right after Christmas. And Mr. Williams hasn't made that suggestion yet! Slowly but surely I learn a bit more each day about my computer. And I do a lot of reading--got through about 90 novels read in 1994 in addition to computing, packet, working the repeaters, and reading the interesting bulletins off the PBBSs, ham publication, etc. And I know I have a lot of company out there, especially when you are retired.

So, let's all look forward to what remains of this new year of 1995.

Until next issue in May, 73 from WD4KHL

Clubs Can Make B I G Money on SERA Associate Memberships

Here's an excellent chance for clubs to add money to their treasury. All you have to do is survey club members and repeater users, and sign them up as Associate Members of SERA.

Make $1.00 Per Member - And Possibly Win $500.00 Bonus Prize

It is this simple, every new SERA member you sign up - the club keeps one dollar. (Sign up 100 members, keep $100.00.) And that's not all! There will be a big drawing at the Shelby (NC) hamfest in September, and some lucky club who has been signing up SERA members may win a $500 cash award.

This is a double incentive for club members to get to work and make some quick money for the club treasurer.

Here are the simple rules for any club to participate:

1. Write to the SERA Repeater Journal editor and get the special signup check-off sheet, as well as complete rules and instruction. Be sure to include SASE.
2. Upon receipt of the official check off sheet, begin signing up new members. Fill out the check off sheet and take their fees.
3. Once each month, submit the check-off sheet, filled in correctly, and a CLUB check for $7.00 for each new SERA member you signed up.
4. Your first monthly checkoff sheet of new SERA members qualifies your club for the drawing in September.

As you can see, how much money your club collects, depends on it's members and how many people they sign up. The drawing will be fair - big club or little club, has an equal chance for the final $500.00 prize drawing. You only have to get at least one sheet of new members submitted.

WIN PRIZES! SEE PAGE 20!

WIN A FREE 2M DIGITAL STATION

2M Xcvr, Coax, Vertical Antenna, and TNC - Value at over $650.00
Or part of over $4,000 worth of other prizes in the SERA Repeater Journal's

"Come Alive in '95" Contest

SERA "Alive in '95" Membership Contest

The Contest: Phase I - Many Prizes Offered!

Get New Members Be Eligible to Win!

How simple can it get? We want NEW SERA Associate members. so we worked out a little incentive that will make just about any existing member get out and try to help us - Prizes! Prizes! Prizes!

The odds will be determined by you. The cost is nothing, just a little effort and some of your time.

What do you need to do?

Depends on how good you think you are! Below is a special Associate Membership application. Only this application should be used for your category of entry. Make lots of copies and get ready.

All you have to do is go out, talk to your ham friends - see if they are SERA Members. If not - get them to join. Get them to fill out the application (or copy) below. At the top - be sure to put your callsign. Be sure your new applicant sends in the correctly filled out application along with a check for membership.

That's all there is to it! You now have one entry for the drawings. Send more, get more entries. No limit to how many new members you can send in.

What Are the Prizes

The prize list will grow each quarter. Our SERA Board has agreed to increase the value and number of prizes based on how many applications come in. However we will guarantee at least $2,000.00 (average retail selling price) worth of prizes for this phase of the contest. In May we may increase this total.

Some of the prizes we are looking at include: (1) Complete dual-band base stations, (2) Dual-band radios, (3) 2M Radios, (4) Packet Stations (5) Packet TNCs, (6) Antenna systems (7) Mobile antennas (7) Books, (8) Accessories - and much, much more.

One Grand Prize Drawing

From the entries of new members signed up by existing members - our first drawing will be a "Grand Prize", which will be duplicate for both persons, the new member, and the person who signed him up. We anticipate this prize value to be at least $900 per person.

More Drawings!

After the grand prize drawing, we will put that entry back in the barrel and begin more drawings - number to be determined by overall prize numbers we obtain. Persons who signed up new members will be eligible for these drawings. The total number of drawings will be determined by the number of prizes assigned to this contest. We anticipate at least 10 to 15 good prizes.

What are your odds?

That depends on you. The more people you sign up as SERA Associate members, the more chances you have to win. Overall odds will be determined by total number of entries in this Phase of the SERA "Alive in '95" Contest.

New members can play!

If you were just signed up by someone as an associate member - you can now sign up new members yourself, since you are now a SERA Associate Member. So get to work, make yourelf some copies of the application and get new members. This makes you eligible more times too.

So Get Going - Now!

Check your club, your repeater, ask everyone - get them to sign up - be sure every application is properly filled out and returned to the correct address and membership fee is included.

Note: No member of the SERA Board, their appointees, or their families are eligible to participate in contest. Drawing Labor Day at Shelby.

SERAs "Alive In '95 Membership Contest? ***(New Member signed up by Existing Member!)***

New Member signed up by: (Callsign only) ____________

The Repeater Journal Offers You:

- ...Two updated 8-state repeater indexes (by frequency and by-city, by-state)

- ...Individual state news coverage
- ...Digital - and much, much more!!

JOIN SERA AND GET THE JOURNAL!

Fill out the application and mail with personal check to:

SERA MEMBERSHIP PHASE I - P.O. BOX 215
TOBACCOVILLE, NC 27050

Your Repeater Journal will start with the next quarterly issue if application received prior to quarterly deadlines of: Jan. 15, Apr. 15, Jul. 15 & Oct 15

This application is eligible for grand drawing for prize package of equal value for Old Member, and New Member appearing on this application. This entry will also be eligible for additional drawings for other prizes for Old Members who solicited new member. No limit of entries solicited by Old Members. After this entry, no limit of additional entries from new member signing up others. No purchase necessary, you may send in one application only for yourself, with no money and have one free entry for prize drawings. (Limit one free entry per person will be eligible for any drawings.) Additional entries of newly signed up persons will allow you as many eligible entries as you wish to submit - one for each person signed up. Prize lists will appear in each issue of Repeater Journal through 8-95. Drawing Sunday, Labor Day weekend at Shelby Hamfest. Odds determined by number of entries submitted. Only one new member entry per application. No renewals. Check must accompany new member application. SERA is not responsible for lost entries. No receipts will be issued. All entries become the property of SERA, Inc.

Yes! I Want to Join SERA and the Journal!

North Carolina News - by Gene Fegely

Send News to: K3EJG 115 Randomwood Lane, New Bern, NC 28562

John P. Buckner, MKM4UZ, proudly holds his 1994 Albert Parker Award from the Coastal Carolina Emergency Net. With him is Secretary Andy Griffith, W4ULD, who presented the award which annually goes to an outstanding member of the net, and honors the founder.

Congratulations to all the new officers recently elected to the many radio clubs in North Carolina. But topping all was the election of Dave Funderburk, K4TPJ, to the US House of Represenatives for North Carolina's 2nd District.

The ARRL released several articles about the former ambassasor to Roumania and Fulbright Scholar, who looks forward to servicing as a representative "in the mold of Barry Goldwater (K7UGA)', reported the RARS Exciter.

Also noted in the Raleigh news was the election of Bruce Buck, KC4UCN, as VP of the club, Rick Merkle, KA3PSK, continues as president, and Curt Phillips, KD4YU, serves as the able editor of the magazine-like publication.

NC State Celebrates 65th

The Student ARS at North Carolina State plans to write an official history of the club which was first licensed in 1931 and is currently attempting to reestablish a shack on campus.

Jim Price, N3QUE, says to contact him at 891-6861 or at his e-mail address <jwprice@unity.ncsu.edu> if you are a club alumni and have any reminiscences, clippings, photos, or anything stored in the attic that could help fill in the club's history.

The NCSU archivist is planning an exhibit to appear in the library later this year. Another contact person is Phil Weinstein, KD4WTJ, says Jim.

Carteret County ARS

Chris Chandler, KD4HCU, have been re-elected President and VP of the CCARS, joined by Butch Simpson, KE4BKW, secretary; and Sterling Hudson, N4WKG, treasurer.

Butch is also the education director of the novice/tech classes which began in January in Morehead City. This active club also participated in the local Christmas Parade and set up a Santa Claus program for the Carteret Hospital Children's ward.

Richard Parrott, KM6DH, edits the Newsletter for the club, which recently has been approved as an ARRL Special Services Club. Meetings are held on the fourth Saturday at 7:30 AM, a little too early for old retiree here to make it from New Bern!

Alligators Group News

Although not a repeater group, the NC Alligators newsletter arrived and announced a December Christmas party paid for out of profits on the Fire Cracker Hamfest held on the Saturday after July Fourth in Salisbury.

Walt Bastow, N4KVF, invites all to participate in the nets on Mondays 8:30 PM on 28.350 and Saturdays 10 AM on 7.240. He also solicits items for his newsletter.

The NC Group had been a part of the Triple States ARC, but has moved out on its own as a volunteer duesless group of over 200 on-air members. After a successful swap meet last fall in Salisbury, another is planned for April Fools Day 1995 at Rusty Holmes Shelter in Salisbury.

North Carolina News Continues

Another HF group, the Coastal Carolina Emergency Net held their annual Christmas party in Morehead City and honored Net Manager John Buckner, KM4UZ. (See photo) Net directors for the nightly 3.907 group are: William Harper, W4RHU; Welma Harman, K4RYJ; Weldon Fields, W4AJT; Walter Van Geisen, AB4DQ: and Floyd Owens, WB4TWF.

Calling the net are: Penny Pennington, K4OJV; Neil Brohn, KE4BJR; Jack Thomas, AB4XE; Art Holm, K3QKJ; and Frances Krepp, W4KYI.

Skywarn Activities

Carl Capps, N4TIE, asked me to correct some information about the Eastern NC Sky Watch system. The official name is Newport District Skywarn, serving eight counties in Area C: Onslow, Carteret, Craven, Pamlico, Lenoir, Duplin, Greene, and Jones.

The program began in October, and has a weekly net on the Grifton 146.685 repeater Tuesdays at 8:PM. The secondary repeater is Trenton 145.21. The Newport NWS is looking for Sky Watchers in the fifteen county area and most recently held a training session in Greenville.

Dan Bartholf, NWS Meteorologist at the Newport Doppler Radar site, can be contacted at 919-223-5122 by anyone who wants to be a spotter, or to set up a training session.

More Election News

New Bern ARC elected Marvin Whatley, AA2YW, as 1995 president; VP Dave Purifoy, WD4PDZ; Treasurer Pete Koonce, KA4SXX; Secretary Ray Hemphill, KI4SJ; and Membership Bill Hudson, KD4UOU.

The club trustee remains Tommie Phelps, WA4EME, who ran another successful "everything goes" auction at a recent meeting.

* * * * *

Stanly County ARC President is Terry Leitch, KA4KTU; with the secretary's chores remaining with Carl Starnes, W4EAT. Their club newsletter, Spurious Emmissions, has been edited by Frank Tunner, KD4DQW, who announced he was stepping down.

This group is another that meets for Saturday breakfasts, plus has a regular meeting at the Stanly Community College. The calendar is available on the K4OGB packet mailbox, says Terry.

* * * * *

High Point ARC elected President Rogers Albertson, WA4BPL; VP Ben Lewallen, N4OCS; Secretary Mary Ann Garner, KE4LSF; and Treasurer Barbara Mixon, KB4NGP.

Editor Mark McMahan, KB4MFP, reported a fine Open House Pot Luck Dessert Christmas holiday party was hosted by Barry and Mary Ann Garner. Now that's one holiday group I wish I could crash in on sometime! (But it's probably not on my Heart Association diet.)

HPARC holds a Christmas morning roll call, hosted by Fred Browning, K4CJU, who reported a little trouble rousting some of the members out of bed. This was the 13th annual, and netted about 27 check-ins, an increse of 10 over the previous year.

Greensboro ARA

Didn't get the election results from GARA as of deadline time, but from the list of candidates nominated, Chris Spivey, KB4UYP; and Joe Davis, KD4WOC probably were re-elected either president or VP since they were cross-nominated!

Their excellent newsletter, Feed Line, includes a monthly calendar for mem-

Continued on Page 24

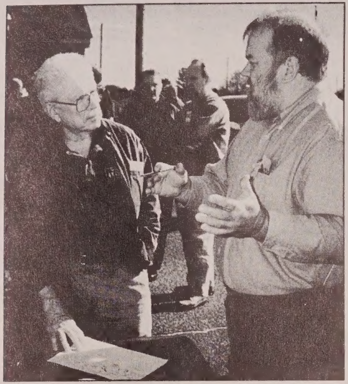
"What is your TNC doing?" is a book that explains packet radio using plain-English. It explains how the TNC talks to other stations, the computer, and the radio. All 120 pages are loaded with details, operating hints, trouble-shooting tips, and good reference material. Author: KA5ZTX. Available at many ham radio stores. To order direct, send $15 plus $3 U.S. shipping and handling (no credit cards) to zm xpressions, 1544 N 1000 Rd, Lawrence KS 66046-9610.

Postal Increase Effects Cost of Mailing QSLs

The Postal Service has raised the rates of first class mail to 32 cents for the first ounce. Consequently, the cost of post cards, or QSL cards also went up - to 20 cents. They also say that the cost of international mail will go up later this year.

North Carolina News

Continues



New Bern ARC's new president Marvin Whately, AA2YW, chats with North Carolina ARRL SM Reed Whitten, AB4W, at the Benson Jarsfest on a sunny November day. - *Photo provided by Gene Fegely, K3EJG*

bers and has received permission from David Jones, N4JED, to reproduce his Repeater Maps as a regular feature, according to Editor Tom Forrest, N4GUK.

A sad note about four silent keys from the Greensboro area included John Broadaway, K4VUW, who along with his wife and daughter-in-law was killed in an auto accident in October. John was very instrumental in getting the 145.25 repeater on the air.

Murray Woodall, N4QAA, trustee of the 145.31 repeater; Charles Vaughn, WD4DNP; and Ken Williams, KA4GDS; were also listed.

Pamlico ARC

The Pamlico Sounds newsletter must have taken me off their list, but the two issues I did receive show the newest group in the area seems to be thriving. Editor Bob Richardson, KR4TW, published a very helpful area nets column which I keep posted near my rig.

The group had a schedule to help in the MD Bike-a-thon in September, a Special Event in Hyde County during October, and a Christmas party Pot Luck. Maybe I can get up early one day to catch the 6:30 AM coffee net on 149.09 when the band is open!

* * * * *

May the 1995 New Year bring all you hope for, and when you get it, let me know so I can tell about it in the column. I have a new Internet address <cn1022@coastalnet.com> if anyone wants to try that path.

SOUTH CAROLINA

"Low Country" News

- *by Ed Frank, KC4OOZ*

The last year has seen a lot of improvements to the repeaters in the Charleston Area. The linking system is working between the 2 meter repeaters, and the 440 repeaters are on line and can be linked on command by the control operators. We are working on the link to Myrtle Beach and to Columbia. With the antenna in place it will not be long till the rest of the hardware will be hooked up and operating. All CARS phone patches are "open" on the repeaters.

CARS has their Christmas party instead of the scheduled meeting on Dec. 10. There were 43 members present and a good time was hab by all who attended. Thanks to Mary, KE4MYY and Phil for their Hospitality. Whoever said that Hams only operate radios and talk to people around the world hasn't been to a CARS party, the food was delicious. Hams can cook too!!!

The 6th Santa Claus Net was held in the Charleston area. The Elves from North Pole City went out to the local hospitals with their 2M HTs and let the children that were confined to the hospital talk to Santa at the North Pole on the radio. They are shy at first but by the time the Elves left they wanted to go to the North Pole with them. A small gift from Santa also helped break the ice too. Charleston ARS has sponsored it for the last 5 years. Santa is Ed (EC4 hO hO Z) and talks to the children and tries to find out what they want for Christmas. Thanks to the many "elves" who help us pull this off over the link system. There were over 100 children who were able to talk to Santa this year.

The Charleston (SC) hamfest is on Feb. 11 at Charlestown Landing. Doors open at 8:00 AM VE Exams will be held at the St. Andrews High School.

The BOC Around the World Alone Sailboat race is now getting ready for the Blast off on the 3rd leg from Sydney Australia to Punta Del Este, Argentine, South America.

The Special Event Station, WA4USN on the Yorktown was a great success, over 400 contacts were made, and answered by Sheila (KC4UDD) with the special QSL cards. Watch for more on another special Event Station in May.

We here in the SC Lowcountry wish youall a very Happy new Year!!!

-Send for into to send news to Ed Frank (KC4OOZ) - (803) 871-4368. Ed will see that it gets into the next issue of the Repeater Journal.

The SERA Repeater Index may be published or reproduced in any form by any publication or electronic means to be distributed without charge. Appropriate credit must be given to the SERA Repeater Journal.

Reproduction or publication of the SERA Repeater Index in any form, mechanically or electronically for a charge is prohibited without prior written consent of SERA, Inc. All other rights reserved.

SERA will not be responsible for incorrect or omitted listings. The responsibility of correct listings are those of the actual repeater owner of sponsor. We make every effort to keep the index as accurate as possible with information provided. The SERA Repeater lists contain certain repeaters which are NOT coordinated or not operating according to recognized frequency utilization plans. SERA does not necessarily condone, or recognize such repeaters as being legal or illegal. They are listed in our indexes primarily to keep our readers informed of all repeaters known in the areas served by SERA.

Repeater owners are reminded to contact their local Frequency Coordinator (Director) for assistance in coordination, changes in their listings, or any other requirements.

SERA REPEATER SYMBOLS

*	Full Member Supporter
D	Deliquent Membership
N	Non-Member of SERA
A	Autopatch (Open)
B	Emergency Power
C	Under Construction
E	Emergency Autopatch
K	Packet Operation
L	Linked Repeater
M	T-MARC Territory Repeater
NB	Not on SERA Freq. Plan
O	Off the Air Temporarily
P	Private Autopatch
R	Remote Base System
T	Tone Accessed
V	Television (SSTV/ATV)
Y	RTTY Operation

NOTE: Some repeaters allow voice as well as other functions on their machine. Generally the second function is indicated, but it does not necessarily mean the machine is solely operated in that mode. Operators may check with owners for information. Repeaters with normal input/output (pairs) are listed in the regular FM repeater index and their operation of Packet is indicated with "K". For tone-accessed repeaters, the codes column contains the tone or access code only for those repeaters which the owner or trustee has given us written permission to publish.

Entries with "#" in front of the city indicate repeaters added to this index that have not been coordinated through the local SERA state coordinator. Please work with your coordinator to get this indicator removed.

Repeater frequencies which have been coordinated but may not yet be on the air are listed with "PROPOSED" showing in the codes column.

Western Carolina Amateur *Radio Society/VEC, Inc.*

An Amateur Radio Volunteer Examiner Coordinator

WANTED! VE TEAMS!

Now that Novice testing has moved into the VEC program, WCARS/VEC believes we must do our part to become more visibile. We are particularly interested in seeing every Amateur Radio Club in America have at least one accredited VE team within its membership.

If you or your club are interested in forming a VE team, WCARS/VEC is ready to help. If you would like to join us, contact any of the WCARS/VEC persons below:

Win Guin, W2GLJ
2138 Sonning Drive
Germantown, TN. 38183
(901) 754-4552

Norman Harrill, N4NH
7 Skylyn Court
Asheville, NC 28806
(704) 253-1192

Ray Adams, N4BAQ
5833 Clinton Hwy., Suite 203
Knoxville, TN. 37912
(615) 688-7771

John Chism, ND4N
139 Mustang Circle
Simpsonville, SC 29681
(803) 963-0001

WE'RE LOOKING FOR A FEW GOOD VE TEAMS!

WEST ANTENNA CORP. - YOUR SOURCE FOR ROHN TOWERS AND ACCESSORIES

Rohn 25G Straight Sections

In addition to a large stock of straight tower sections, we also have flat and sleeved top sections, thrust bearings, house brackets, short base sections, rotor plates, guy assembilies, guy wire, cable clamps, turnbuckles - you will need for a complete tower installation. Call us for more information!

Scotchkote Electrical Coating

Scotchkote Electrical Coating made by 3-M Co. can be used for underwater connections also. A 15-oz. can will do 50 to 100 connections.

15-Oz Can........................$12.00

ROPE

West Antenna has a huge inventory of all types of synthetic rope in all sizes to fit your every need. Large or small, your rope requirements can be met by us.

CHECK THESE ROPE SPECIALS:

Black Twisted Polyprophelene

Good for dipoles or overhead supports on beams at a very low cost. Lasts two or three times longer in the sun than regular poly rope.

1/4-inch	**4 cents/foot**
600 foot spool	**$20.00**
3/8-inch	**8 cents/foot**
600 foot spool	**$42.00**

Solid Fiberglass Masts

West Antenna Corp. is pleased to now have in stock new nonconductive solid Fiberglass masts in 1-1/4, 1-1/2 and 2-inch diameters. Lengths up to 15-feet are available. **Call!!**

Miscellaneous

PL-259 Connectors (U.S. Made)	
Each	0.65
10 or more	0.60
UG-175 or 176 Adapters	0.30
10 or more	0.25

Hard Line and Connectors

West Antenna can supply 1/2, 7/8, 1-1/4, and 1-5/8 - inch Hard Line in corrugated copper, also available is 1/4-inch corrugated copper superflex. We also have a limited stock of Hard Line connectors. If we do not have specific connectors you need in stock, they can be supplied within approximately 10 days.

CADWELD

The fastest and most reliable connections for buried or above ground rods. This system provides a molecular bond that can't loosen, can't corrode, isn't subject to galvanic corrosion, and is capable of carrying more current than the grounding conductor itself. West Antenna Corp. can also supply and install ground systems for commercial tower sites.

Polyphaser Lightning Suppressors

High quality commercial units. Low loss, low noise. Frequency range through 2 GHz. Bulkhead and inline types are available, including rotor cable and D.C. control lines. **Call for prices and more information.** *2-Way shops are urged to check with us for special Dealer Pricing.*

Other Tower Accessories

Aluminum Mast Pipes, feature 2-inch OD, 6061 tubing - 1/4-inch wall.
12-foot lengths, 19 lbs - In Stock
24-foot lengths, 38 lbs. - In Stock

Cold Galvanizing - excellent for touching up rust spots on your tower and antenna bolts.

Large Spray Can..............$6.50

Guy Wire Insulators - Compression type, porcelain. Approx. 1-1/2 x 2-1/2 inches with 3/8-inch hole.

Insulators	**$2.50**
10 or more	**$2.20**

Stainless Steel Strapping Kits

Stainless steel strapping kits, for strapping hardline or multiple runs of Coax. Kits come with 25, 50, or 100 feet of stainless steel strapping and buckles.. **Call!**

For The Ultimate Mobile Installation

We have what you need - wire, fuse blocks, fuses, connectors, relays & breakers! You want your mobile Low Band or Amplifier installation to work efficiently. We have the proper wire, fusing and parts needed for a perfect installation.

WIRE - Single Cond. - Stranded
Red or Black vinyl insulation

#10 wire	**0.30 per ft.**
#14 wire	**0.14 per ft.**

FUSE BLOCKS - Our fuse blocks are rugged, holding fuses much larger than the little 3AG glass type. This prevents overheating and voltage loss with high currents. Set screws in end of fuse blocks will accept wire up to #6.

30 AMP Fuse Block	**$4.95**
60 AMP Fuse Block	**$7.50**

FUSES - Many Sizes available!
5,6,7,8,10,20,30 Amp...........0.80 ea
35,40,45,50,60 Amp Also available upon request. Give us a Call!

NOW AVAILABLE! **DC Breakers** for Mobile Installation. Call For Details!

RELAYS - These Motorola Type A style relays can be installed near the fuse block in the fenderwell and remotely switched under the dash with a small toggle switch. Excellent for switching high current lines. Relays are a closed type with screw terminals for mounting.

Type A - Special!	**$21.00**
40-Amp Continuous - Duty Solonoid Type 12V	**$42.00**

(Commercial Dealers call for special Dealer Prices!)

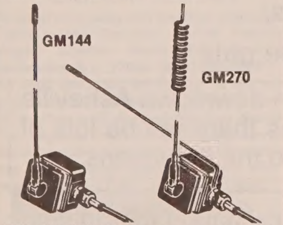
PRO•AM's GM144 is 27.5 inches tall, handles up to 50 watts and covers 144-148 MHz with SWR below <1.5:1 across entire band (tunable via interior coupling unit). Gain is 2.5 dB. Almost doubles your transmitted signal strength and extends receive range accordingly. You will be delighted with the results.



PRO•AM's GM270 is 26 inches tall, handles 50 watts, and covers 144-148 plus 440-450 MHz with SWR less than <2:1 at band edges (tunable via interior coupling unit). Gain is 2.6 dB 2m and 6.3 dB 70cm. A real tiger!

HF MOBILING BEGINS HERE!

Ready to experience home station performance and great HF DXing on the open road? Gear up with PRO•AM's multiband AB5 or monoband PHF-series mobile antennas and enjoy top results all the way! These time-proven HF antennas are especially designed for maximum efficiency, low SWR, and broad bandwidth. They are rated at 250 watts P.E.P. and built to withstand many years of hearty use.

PRO•AMs Monoband PHF series antennas consist of a 4 ft. fiberglass lower section with integral coil and an adjustable (and removable) 4 ft. SS whip. Mix/match models as desired: PHF75, PHF40, PHF30, PHF20, PHF17, PHF15, PHF12, PHF10 & PHF6. Available in black or white in lower section. These economical antennas are lightweight yet strong and do not require guying. They are outstanding values!

PRO•AMs AB5 is a complete 5 band antenna. It consists of: 4 ft. aluminum mast, quad-top adapter and resonators for 10, 15, 20, 40, and 75 meters. Mast fits any standard 3/8-24 thread mount. 10, 15, and 20 meter resonators cover SSB ranges without extra tuning. 40/75 resonators easily tunable. Mast (ABM4) and resonators (ABR10/ABR75) also available separately. A super mobile antenna system that "gets out" like gangbusters!

AD INSERTION ORDERS

Due to a volunteer staff we cannot send out and receive advertising contracts and notices. Your invoice will contain information pertaining to future insertions. If we do not receive any instructions on your returned invoice copy, your ad will be repeated and invoiced the upcoming quarter. The ONLY exception is HAMFEST advertising. They must be ordered each edition for insertion.

NO ADVERTISING DISCOUNTS

Advertising invoices are due upon receipt. Unpaid invoices will require us to withhold any additional ads in until account is paid in full.

SPECIFICATIONS & GENERAL

Sizes listed Above are width by length in that order. Ads received that do not fit dimensions will be adjusted to the nearest ad size and be billed $8.00 production fee. The ad will be billed at the size rate it had to be adjusted to.

Prices quoted are for exact size, camera-ready positive photoprint, pasteup or Laser print ad copy.

Full color ads for covers require negatives, right-reading emulsion down, sized for full 8-1/2x11 crop. 150-Line screens preferred. Color Match Proof, Color Key or Pre-printed tearsheet should accompany negatives.

Camera work, design, typesetting, pasteup is available at a nominal charge.

The Repeater Journal cannot be held liable or responsible for errors in advertising, or to the quality or accuracy of advertising claims.

When possible, advertisers requiring typesetting or composition by the Repeater Journal staff will receive a proof with time for telephone corrections. After deadline proof changes to an ad are not available due to staff and time limitations.

ADVERTISING DEADLINES

All advertising copy and insertion orders should be sent to the Repeater Journal Advertising Manager: **Sharon Ward, P.O. Box 215, Tobaccoville, N.C. 27050. (910) 983-0879**

Ad copy deadlines are the 1st of the month, prior to month of publication. New ad insertion order deadline is 10 days prior to copy deadline.

The Repeater Journal cannot guarantee publication of any advertising that arrives after deadline unless prior arrangements are made with the Repeater Jouurnal Editor or Sales Manager.

AD & COPY DEADLINE DATES

FEBRUARY ISSUE - January 1,
MAY ISSUE - April 1,
AUGUST ISSUE - July 1,
NOVEMBER ISSUE - October 1.

The Repeater Journal is published by and is the voice of SERA, INC.

Two New Changes For the Journal

We have incorporated two changes in this issue of the Repeater Journal. One is a format change to the repeater index, the other is a new feature.

Repeater Index - By-City, By-State has been reformatted into a 5 column setup. This enabled us to delete repitition of the frequency so often, and place it within the column. This then gave us room to put the complete callsign of the repeaters.

The new feature for this issue of the Journal is Repeater Nets. With the mailing of the datasheets to all repeater owners last Fall, they were asked to list all nets which were held on their repeaters.

Westlink Report Ceases

For 13 years Westlink Report published a newsy report of news every other week, supplying clubs, nets, and hams the latest news in Amateur Radio.

It ceased publishing with its January 1 issue. Burt Hicks, WB6MQV had published Westlink for several years, and had often used his own funds to keep it going.

Remaining subscriptions of Westlink Report will be fulfilled by Worldradio.

Alive in '95

SERA Membership Contest Is Underway!

Thousands of $$$ in Amateur Equipment To Be Given Away by SERA at the Sept. Shelby, NC Hamfest.

Our grateful thanks to the following civic minded dealers who have already contributed money for purchasing prizes to add to the several thousand dollars SERA has set aside - more to come later!

NOTE TO PROSPECTIVE EXAMINEES:

It is always a good idea to call the contact person to get full information as to what is expected of you when you arrive at the exam site. Many schedules are distributed in advance and changes occur. All examiners will require you bring: (1) Your original license. (2) A copy of your license. (3) Any original CSCEs you may have. (4) A copy of CSCE. (5) Identification, preferably photo I.D. with birth date showing. (6) checks are usually preferred payment.

New UPS Rates

You may expect to pay more shipping on items you have shipped to you via UPS in the future. First it was the postal service, and now United Parcel Services has announced an approximate 3.9% rate increase overall. CODs charges also increased from $4.50 to $4.75 each. There are increases in the Next Day Air, 2nd Day Air, and Air Letter rates.

The increase took effect February 4.

AEAs PK-12 Has New GPS Firmware And Optional APRS Adapter

AEAs PK-12 with Adapter cable and computer running APRS software and GPS receiver.

AEAs low cost PK-12 Packet controller now includes firmware which enables it to connect to GPS receivers with a NMEA-0183 interface.

The optional APRS adapter cable for the PK-12 was designed for Hardware Single Port Mode operation. This cable lets users running APRS (Automatic Packet Reporting System) software devote only one COM port for the GPS receiver and the PK-12. This is a great feature since most computers only have two COM ports with one used by a mouse. Laptop users only have one COM port so AEAs APRS Adapter Cable is a must.

When used without the APRS Adapter Cable, the new firmware lets the PK-12 be used as a Stand Along Tracking device. This means a PK-12 can obtain positioning information from a GPS receiver and beacon it in Packet over the ham bands through a transceiver without using APRS software; no computer is needed. Vehicles equipped with a PK-12, a GPS receiver and a radio can beacon their location and be seen on a computerized map by APRS users.

Integrating GPS with the PK-12 results in a powerful tool for tracking vehicles and people during public service events, seeing where emergency vehicles are during disasters, and for mapping DX spots. Send messages to other APRS users or just keep track of mobile units with Packet and communicate with voice.

The new firmware built into the PK-12 is GPS and Loran compatible and is also ULTIMETER-II compatible which allows users to receive weather information from remote sites. The PK-12 is also ARNAV compatible.

ALINCO
VHF/UHF FM TWIN BAND DR-600
145.00
440.00
Full remote control by a transceiver.

DR-600T New

The DR-600T offers the convenience of a remote--mount head, for installation in even the smallest of vehicles. This road-ready rig can also be remote controlled from any radio that transmits DTMF tones. This remarkable feature allows the DR-600T to act as a full-featured Cross-Band Repeater, with or without a security code.

Some of the other outstanding features of the DR-600T include Wide Frequency coverage, with AM Aircraft receive after simple modification. Direct frequency entry from the microphone is also possible, and the CTCSS Encoder is built in.

There are three Output power selections, and other features such as Dual Band Receive, ABX (Automatic Band Exchange), DSQ, Private Paging, Autopatch, memories, Full Duplex Operation, and Six Scanning Modes are included.

The DR-600T has the rugged construction that you have come to expect from ALINCO, for reliability even under the worst conditions. Housed in a steel chassis, complete with a thermally controlled fan, this radio can run hard, and run long.
